

Our Gluten Free Promise

A long, long time customer was recently diagnosed with having allergies to gluten and was no longer able to enjoy his breadsticks and 5 cheese pizza.

After doing alot of research and testing I came across Viitals Gluten free Bakery & Cafe.

We have now partnered with Viitals Bakery, which is locally owned and operated in Tampa,. Viitals specializes in providing baked goods and other items for those with food allergens. They will be providing us with gluten free pizza crust for those allergic to gluten or that are on wheat free diets can enjoy real pizza again.

What we do here to insure that your pizza is gluten free:

We will be using special screens to place the pizza crust on once it enters the oven, to insure no cross contamination

We have designated pizza cutters that will only be used to cut gluten free pizzas

Our sauce, cheese and other toppings that we offer are gluten free

Our entire staff, from our cooks to our drivers have been and will continue to be very well trained on how to care for and handle the gluten free pizzas

We use Rice Flour, which is Gluten Free, to dust all our pizzas with. So all the flour that gets on us and that may settle throughout the store is SAFE.

Due to the fact that this is a pizza shop, we do use wheat flour, but we have taken all precautions to ensure that your gluten free pizza is cared with upmost attention. Because this is not a dedicated gf facility we have to state that the gluten free pizza may contain trace amounts of wheat flour.

If you have any further questions or concerns please contact us or visit Viitals Bakery website, www.viitals.com
